Ron,

Any news from Carolyn Casey. Do you want to check in with her?

Carolyn, attached please find a revised response which tracks your earlier comments. I hope this approach is more clear.

I should explain that the delay following your November response was as a result of a crossed wire on my end. We had prepared a response soon after receiving your comments and I had mistakenly thought it had been transmitted to you.

Thank you for your comment on the fence and, yes, let's discuss then.

Ron

Subject: RE: Beverly QAPP

I am confused about the response sent yesterday. Attached is the last correspondence from me sent 11/17 (please see attached). I was expecting some minor revisions to the QAPP so I could forward to our lab for review/approval. This response does not appear to address all the issues and requests for clarification/revision. Please let me know if we need to discuss further.

The last time I was in the area (Sept 2014) I noticed the following damage to the fence (see attached pictures). It appears as though kids are jumping the fence. Following sampling and hopefully prior to the area being accessible again (after snow melt) we should discuss the need for posting.

Thank You

Carolyn

Carolyn, attached are our comments in response to your preliminary comments on the Quality Assurance Project Plan (QAPP) for Sediment Investigations at the former USM site in Beverly (the portion of the site (and an adjacent area) now under control of my client, Stop & Shop).

We look forward to any further comments you may have.

Ron
